About us

Debra Lemaire

Debra assists people in the integration of their Higher Angelic Self as a psychic activator, devotee of the violet flame, & intuitive development/ascension coach & trance-channel. She is passionate about the mystical Christ teachings, soul & cosmic history (Akashic records), channeled artwork, celestial beings, and past/parallel timelines of the soul. The healing powers of sound frequencies & hypnosis.

Nick Keybergh

Nick's passion and curiosity led him to the Amazonian traditions and holistic healing practices learning directly from plants. Our connection to nature is a key element in reconnecting to our essence and spirit. Next to the mysteries of the Amazonian traditions he found a lot of strength and health in practices based in the Shaolin traditions to complete a picture of body, mind, energy and spirit. This created the foundation for what he is practicing today and what he wants to share with you in our workshop.
